

Nursing of Obstetrics and Gynecology (a demonstration textbook for specialties of nursing and midwifery of Chinas secondary vocational education,2nd edition) (Chinese Edition)

The book, edited by Mei Li, is a demonstration textbook for Chinas secondary vocational education. Based on the philosophy of nursing of centering humans holistic health and the nurse post demand, it emphasizes nursing assessment, diagnosis and measures. The examples will make theoretical teaching closely contact with clinical practice. The link will expand students knowledge. The check points, test protection link, summary and self-test questions will help students review and consolidate previous knowledge and making periodic evaluation. The training guide will provide good reference for learning the training courses well. In addition, the supporting courseware, reference answers for self-test questions and the outline will be a good reference for teachers teaching and students reviewing. It focuses on the cultivation of students skills, fully embodying the ability-oriented characteristics of secondary vocational education. With its knowledge, fun and practicality, it is regarded as a good teaching and clinical reference book, suitable for students who major in nursing and midwifery specialties in secondary vocational education.
