

Hydroponics for Beginners: The complete step-by-step guide to grow fruits, herbs and vegetables hydroponically at home! (Hydroponic techniques, aquaponics, guide to hydroponics, home hydroponics)

Hydroponics for Beginners: The complete step-by-step guide to grow fruits, herbs and vegetables hydroponically at home! (Hydroponic techniques, aquaponics, guide to hydroponics, home hydroponics)

You can grow your own organic fruits and vegetables anywhere, at any time of the year - and save money! Author David Campo shows you how in *Hydroponics for Beginners: The complete step-by-step guide to grow fruits, herbs and vegetables hydroponically at home!* Fruits and vegetables can be pricey, especially if they're out of season. And of course they can be even more expensive if you choose to go organic. You could always plant your own garden, but maybe you don't have enough space outside, or maybe you live in a colder climate. Don't let climate or space prevent you from enjoying your own fresh fruits, vegetables and herbs. Gardening is more than growing food. It's a hobby that countless people enjoy. Unfortunately not everyone lives where they can plant an outdoor garden. The alternative is to set up an indoor aquaponics system. In this book, David Campo explains what hydroponics is, shows you various hydroponic techniques and takes you through each step of setting up a hydroponics garden at home. Here are the chapters in *Hydroponics for Beginners*: 1: The Basics: What is a Hydroponic System? 2: Components of a Hydroponic System 3: Lighting and Heat 4: Types of Hydroponic Systems 5: How to Set Up Your Own System at Home 6: Nutrient Solution and Growing Medium 7: Plants Per System This guide to hydroponics makes setting up a home system easy and enjoyable. Great for retirees and hobbyists who enjoy working on new projects, gardening and eating mouthwatering fruits and vegetables year round! Don't wait anymore. Get your copy today!
