

New Vintage: The Homemade Home. Beautiful interiors and how to projects

A beautifully illustrated but practical guide to decorating and living beautifully. It is filled with easy projects to make your home hip and divine. Influenced by relaxed, French interiors. The author is more than a stylist, she is a trained interior designer who works everyday with real clients to help them solve their home design dilemmas. It is not only meant to be inspirational, making the reader want to live more beautifully, but justifies itself by being full of practical information on how to create effects in your own home.
