

Giuseppe Arcimboldo (French Edition)

Giuseppe Arcimboldo (Milan, 1530 environ 1593) A ses debuts, les contemporains d'Arcimboldo n'auraient pas pu imaginer qu'il allait réaliser ce qui le rend célèbre aujourd'hui. Ses œuvres juveniles étaient habituellement destinées aux cathédrales de Milan ou de Monza, mais c'est à partir de 1562, quand il fut convoqué à la cour impériale de Prague, que son style et ses sujets changèrent. Pour la cour, il imagina des fantaisies originales et grotesques faites de fleurs, de fruits, d'animaux et d'objets assemblés pour former un portrait humain. Certains étaient de nature satyrique, et d'autres des personnifications allégoriques. Si son travail est aujourd'hui considéré comme une curiosité du XVI^e siècle, il puise en réalité ses racines dans le contexte de la fin de la Renaissance. À cette époque, les collectionneurs et les scientifiques commencèrent à prêter plus d'attention à la nature, recherchant des curiosités naturelles à exposer dans leurs cabinets de curiosité.
