

Sustainable Production Model

SPM/Sustainable Production Model Your dream is clear: you're an independent media artist, and you want to make your film/video/web series/television pilot/sitcom, etc. And you want to get paid to do what you love to do. But how do you start when you don't have the funds? SPM is a sustainable production model, a new, co-operative style approach toward making independent film. All you need is to follow a few steps, and have a dba and business insurance, and you can create the work that matters to you most for just the price of lunch for your cast and crew! The basis of this ebook is to teach you how to produce unlimited content at a sustainable level, and to suggest creative ways to secure funding. Who: Author Darcel Walker has used the SPM method to create 2 television pilots: AMN Art and Music News (The CNN of the Arts) IndieLove.tv An interactive Global Cineplex and 1 web series: Bamboo Dreams (A Place where the attractive pain of will and determination meet) You can do the same and even more! Where: Do yourself and a friend a favor: Purchase this valuable ebook! Now on iTunes, Amazon, Kindle and Barnes & Noble!
