

A Treacherous Decision (Order of the MoonStone) (Volume 2)

Kaydens mission should have been simple she was sent to kill the prince . . . not to fall in love with him. Within the palace walls, Kayden has discovered that things are not as she expected. Is there more to the royal family, or . . . is there a more sinister depth to Dreys mission? Dvarius thought his mind was made up but will he have the resolve to see it through? Between attacks from outside the palace and within, will the Prince live long enough to choose his Queen? And will Kayden choose to follow her head . . . or her heart knowing that her decision could very well make her a target as well!
