

Atlas of Foreshortening: The Human Figure in Deep Perspective

A unique visual encyclopedia for artists and illustrators. Like its acclaimed predecessor, the Second Edition of this outstanding photographic reference offers illustrators, fine artists, and animators immediate access to the human form in deep perspective, that is, foreshortened. With all-new photographs, the Atlas of Foreshortening features:

- * Over 530 high-quality photographs
- * Both male and female nudes
- * Poses with slight, moderate, and marked foreshortening
- * Detail shots and full-body photographs
- * Many poses shot from multiple angles
