

Artificial Absolutes (Jane Colt Book 1)

Jane Colt is just another recent college grad working as an Interstellar Confederation office drone until the day she witnesses her best friend, Adam, kidnapped by a mysterious criminal. An extensive cover-up thwarts her efforts to report the crime, shaking her trust in the authorities. Only her older brother, Devin, believes her account. Devin hopes to leave behind his violent past and find peace in a marriage to the woman he loves. That hope shatters when he discovers a shocking secret that causes him to be framed for murder. With little more than a cocky attitude, Jane leaves everything she knows to flee with Devin, racing through the most lawless corners of the galaxy as she searches for Adam and proof of her brother's innocence. Her journey uncovers truths about both of them, leading her to wonder just how much she doesn't know about the people she loves.
