

Impressions, The Digital Art of Marta Nael. Deluxe Edition

(Text in English and Spanish) Impressions: The Digital Art of Marta Nael, is the first illustration book by the young artist Marta Nael. By means of a colour and brightness explosion, Marta takes us into a universe where fantasy mixes with reality, which leads to beautiful women, mysterious creatures and landscapes that seem taken from a dream. In these pages we will be able to find a wide sample of the illustrators repertoire. She uses several techniques among which the digital impressionism, as she names it, and through a series of tutorials explains us which are the steps that she follows to build up her creative conception of the world.
