

Bridge Markland: Portraits

Shedding light on a rare style of performance, this autobiographical study centers on Bridge Markland, a Berlin-based artist who has been inspired by the expressionist and grotesque dance of the early 20th century. The account reveals Marklands multi-talented reputation, demonstrating how she is proficient in all forms of performance art including dance, grotesque, slapstick, transgender performance, cabaret, and poetry. Showcasing a personality who has been active on the German capitals cultural scene for many years, this narrative reveals a fascinating artisan in her many forms and guises.
