

Bruno Bisang: 30 Years of Polaroids (English, German, French, Spanish and Italian Edition)

For his third book with teNeues, Bruno Bisang shares a vivid cross-section of his Polaroid archives. Once a simple tool to test lighting, angles, and moods, this format is now a relic of photographys analog age-with its own unique qualities. At the time designed to be disposable, every annotation and misstep captured on Polaroids--a depth lacking in todays digital manipulation--is now a part of cultural and artistic history. Page by page, readers witness the unfolding of Bisangs vision. Featuring such stars as Naomi Campbell and Tyra Banks, this collection may just become a cult classic.
