

Carolines Collection of Wildlife Paintings in Watercolor

This is a book of Caroline Wang's wildlife paintings. It contains 87 watercolor paintings of all different kinds of animals, birds, insects, fish, other ocean animals, and Chinese Zodiacs, all in vivid color and shades. This book is designed for people in all ages. The signature style of Caroline's wildlife paintings are the expressions on the animals' faces. The main focus of the paintings is on the subjects, not the busy backgrounds. This method creates more imagination, and gives more depth to the artwork itself. Caroline's original intent of this book was to design a wildlife book in watercolor for children. But because the unique techniques she used in the paintings are influenced by both Asian and Western culture, they can be enjoyed by all. These paintings can inspire people who are watercolor artists who wish to learn new skills. It can also be viewed by art lovers for art appreciation. The harmony of the paintings can be appreciated by people who just want to look at them for pleasure. Therefore, this book is valuable for educational purposes and for art lovers of any age. Caroline thinks that E-book is the best platform for these wildlife paintings. No print can really demonstrate these complex colors and shades. It would be costly to produce these in books and therefore not cost effective. Caroline's goal is to be able to reach as many people as possible around the world and to inspire them with this unique collection. She wants this book to be able to inspire children to enjoy wildlife, and to start to sketch or paint at an early age. She also wants to inspire adults to enjoy viewing the results of different techniques/medium and to be able to create some unique paintings of their own. Copyright 2016
