

Celadon Blues: Re-create Ancient Chinese Celadon Glazes

Enter the realm of Sky Blue Glazes. The beautiful, subtle, and visually varied glaze effects of celadons can be achieved with the guidance of this terrific study from noted chemist and potter Robert Tichane, who has done years of research to dissect ancient Chinese glazes and re-create them with modern materials. The results of thousands of tests of this notoriously fussy glaze will guide potters of all skill levels to achieve a variety of colorations, from sky blue to green to gray, from dramatic to understated.
