

Cock Tales

Just like our successful anthology *Jewels*, the comprehensive compilation *Cock Tales* is dedicated to the most exciting part of the male body. And even if the object is always alike: the variable works of the different artists is astounding over and over again. Well, every penis in the world is unique - a cock is a cock is a cock. And it doesn't matter if none of these cocks is able to tell us his tales. Just looking at them will jump-start a movie in our heads. And that's still where the best stories occur.
