

The taste for the other: The social and ethical thought of C. S. Lewis

A deeply meditated study of C.S. Lewis as a social philosopher. It does him good service. Avoiding unnecessary biographical data, Meilaender concentrates rigorously on Lewis writings in an attempt to get at the heart of [his] vision of human community and his understanding of morality . . . A discriminating work with an intricate structure well suited to the subject. -Modern Language Review

Meilaender's first-class scholarly study of Lewis's social and ethical thought is also a fine commentary on his anthropology . . . A well-written interpretation of the man who has probably had more influence on the theology of thoughtful Christians in the twentieth century than all the church's professional theologians. -Choice

Meilaender is a master exegete and critic of Lewis's dialectical vision in all its rich concreteness . . . This work must now stand as our best guide to Lewis's thought. -Christian Century

A remarkably complete look at Lewis's thought. -New Oxford Review

Combining solid scholarship with literary imagination, Meilaender does what Lewis himself does: he fascinates readers and draws them unawares into serious thought and into reflection requiring a response. . . . A first-rate study of Lewis that can serve also as an introduction to a serious study of all of Lewis's works. -Religious Studies Review

A book that has been needed for a long time. Meilaender brings to his study not only an in-depth knowledge of philosophy and theology but also a keen literary awareness. . . . A gracefully readable, luminously clear book. -Christianity and Literature

GILBERT MEILAENDER is the Phyllis and Richard Duesenberg Professor of Christian Ethics at Valparaiso University. His most recent book is *Bioethics: A Primer for Christians* (Eerdmans).
