

Creating Special Effects for TV and Video (Media Manuals)

Creating Special Effects for TV and Video is a concise and practical introduction to the techniques used in television production. Now completely updated, this third edition covers a wide range of special effects in a simple and practical form, with clear illustrations and photographs that support the text. Creating Special Effects for TV and Video is a concise and practical introduction to the techniques used in television production. Now completely updated, this third edition covers a wide range of special effects in a simple and practical form, with clear illustrations and photographs that support the text. Bernard Wilkie now a freelance consultant, director and writer, spent 25 years creating special effects for BBC TV where he became manager of one of the largest and most specialised visual FX units in the world.
