

Butterflies and Moths CD-ROM and Book (Dover Electronic Clip Art)

Butterflies and moths from around the world fill this stunning graphic collection of lepidoptera. Selected from a great eighteenth-century classic of natural history, the accurately rendered images depict a wide array of authentic winged beauties. Included in the set are a CD-ROM containing 490 high-quality, royalty-free designs scanned at 300 dpi and saved in TIFF format, perfect for use with all the most popular programs; and a large-format 48-page book with every image on the CD-ROM printed large and clearly and numbered for easy reference. Also included on the CD-ROM is Dover Design Manager, a simple graphics editing program for Windows. Ideal for scrapbooks, memory books, and other decorative uses, the attractive, detailed images will be valued by commercial artists and illustrators.
