

Montanas Del Mundo/ Mountains of the World (Spanish Edition)

Las montanas son el reino del silencio y, en muchos casos, del vacio antropico. Son los ultimos santuarios de la naturaleza en su estado mas puro, de las culturas tradicionales y de las creencias humanas. Con la celebracion del Ano Internacional de las Montanas 2002 ha quedado claro que estos enclaves, pese a ser fuente de recursos como el agua dulce, la biodiversidad o los bosques, estan cada dia mas amenazados de destruccion. Esto es lo que esta obra de gran formato trata de transmitirnos, a traves de las imagenes y textos de autores como Eduardo Martinez de Pison, Eduardo Vinuales, Juanito Oiarzabal, Sebastian Alvaro, Joaquin Araujo, Oriol Alamany,... De esta forma, sentiremos la percepcion de la belleza y del valor natural de las montanas, conoceremos la evolucion del conocimiento fisico de las montanas, la vida salvaje, la historia de la exploracion de las montanas y del alpinismo, o aspectos mas personales como el mundo visto desde las catorce montanas mas altas. Una edicion de lujo como homenaje a unos espacios que quizas por su belleza y por su simple contemplacion, debemos conservar para las generaciones venideras.
