

## The Field Trip

An adventure mixed with a touch of fantasy. Add a twist of love. Although clumsy with women, botany professor Ross Barton possesses the quality of fearlessness when confronting danger. Relieved to be escaping routine school work and a bad relationship for a field research trip, a strange woman and danger are the last of his expectations. Jay, an awkward young woman unwilling to disclose her past, begins a solitary hike into the forest with a pet concealed in a box. She claims the pet is a cat. Rumors are spreading about odd lights in the night skies of New England. A flight instructor reports that the government quarantined an area of Vermont woods. All trails intersect on The Field Trip.
