

Dreams of Futures Past (Dream Land)

SAVE THE ONE OR THE MANY? OR BOTH...IF YOU ARE AN INTERDIMENSIONAL VOYAGER! After his adventures in Book I, Sebastian Talbot (a.k.a. Set-dElous, legendary warrior and Sekuatean cavalry captain) has exiled himself to a desolate island, content to laze away the days writing his memoir. Until the emissary from Queen Tammy arrives with a mission he cannot refuse. Tammy, the IRS clerk he took to Ghoupallesz along with Michael in Book I, wants him to go fetch her son who she left on Earth. How could she return for him? She married the King of Aivana. That mission raises desperate questions for Sebastian: If he can go back and forth through these interdimensional doorways and arrive in different time periods, perhaps he can do something to prevent the big war he fought through, the war that destroyed his family and millions of others. So he returns to his Ghoupalle wife Zaura. While on patrol duty, he comes upon a young poetess he knows will become the rebel leader who helps overthrow the monarchy and causes the wars. What would you do? Meanwhile, back on Earth in another timeline, Sebastian awakens from a coma and is helped in his recovery by Dr. Toni Franck. An affair develops just as his opportunity for escape comes along. Later, as Sebastian/Set escorts teams of mercenaries back and forth to conduct their history-changing business, he tries to meet up with Toni again only to realize the police are still in pursuit. Desperate to see her, he arranges a meeting only to have a SWAT team show up, cornering him. Can he escape through an interdimensional doorway this time? THE DREAM LAND trilogy continues in Book II with parallel time lines, world domination and world destruction, and as always the minuti? of heroic minds playing god without a rule book.
