A study of electrodynamics of moving media - IEEE Xplore Document In the general setting of the problem, the explicit compact formulae are derived for the ponderomotive forces in the macroscopic electrodynamics of moving media.

Electrodynamics of Moving Media SpringerLink Nature. October 1958 , Volume 182, Issue 4642, pp 1045-1045.

Electrodynamics of Moving Media. Authors Authors and affiliations. V. C. A. FERRARO. V. C. A. **Electrodynamics of moving media and the force on a current loop** Electrodynamics of Moving Media and the Theory of the Cerenkov Effect a swiftly moving charged particle in a medium of dielectric constant ϵ and **Electrodynamics of Moving Media and the Theory of the Cerenkov** **An invariant theory of the electrodynamics of moving media** Is Part Of: Radio Physics Electrodynamics of Moving Media Massachusetts Institute of Technology, Research Laboratory of Electronics, Quarterly Progress **Electrodynamics of Moving Media - Paul Penfield, Hermann A. Haus** Abstract. The recent formulations on electrodynamics of moving media proposed by some authors are reviewed. It is pointed out that all these apparently new **Electrodynamics of moving media and the Cerenkov** - IOPscience Electrodynamics of Moving Media. Front Cover. Paul Penfield, Hermann A. Haus. M.I.T. Press, 1967 - Electrodynamics - 276 pages.

Electrodynamics of Moving Media Electrodynamics of moving media and the theory of the Cerenkov effect. BY B. D. NAG AND ABUL MAKSUD SAYIED. Institute of Nuclear Physics, Calcutta. **Electrodynamics of Moving Media and the Theory of the** - jstor The answer to a previous question suggests that a moving, To close the loop, Andrew, the answer to your newest question is: The best and : **Electrodynamics of Moving Media (9780262160193)** The object of this paper is to find the equations for the electric and magnetic intensities E and H in a homogeneous medium moving with a uniform velocity, from **Present views on electrodynamics of moving media - IEEE Xplore** Recently there has been an increase of interest in the electrodynamics of moving media. This is primarily due to the emergence of new
