

Your New Budgie Guide-Let Parrots Keep It Happy an Healthy

a parakeet is actually a budgerigar and is native to Australia. Also known as a budgie, in the wild they are usually light green with black and yellow markings but bred in captivity they come in many different colors. A budgie/parakeet is a great first pet to introduce to young children. If you do not have children a budgie/parakeet is a great companion. There is something magical about having a beautiful bird in your home. Many owners who are single by choice or happenstance enjoy the companionship of their bird.
