

Ferris Clinical Advisor 2007: Instant Diagnosis and Treatment, Book, Website & PocketConsult Handheld Software, 1e

Ferris Clinical Advisor 2007 offers a fast, effective way to access important diagnostic and therapeutic information on nearly 200 conditions. Its 5 books in 1 format offers key information on diseases and disorders * differential diagnosis * clinical algorithms * laboratory evaluations * and clinical preventive services. This package also includes access to a web site where you'll find all of the content from the book, with links to the latest drug information in Mosby's Drug Consult * Patient education * and handheld software featuring the content from sections I, II, and IV and point-of-care information from other sections in the text. The result is a convenient, portable source for must-have guidance essential to everyday general practice. Provides key preventative information adapted from the US Preventative Health Task Force. Features billing codes, including ICD-9-CM codes to expedite insurance claims and reimbursements.

FEATURES of FirstConsult: Designed for use at the time and point of care, can be used on desktop and laptop computers. Tools for differential diagnosis, evaluation and management of medical conditions, patient education and procedure skills. Medical Conditions database presents consistently organized, regularly updated information on patient evaluation, diagnosis and treatment, tests, prevention and much more: each Medical Condition File is organized into 7 sections (Summary, Background, Diagnosis, Treatment, Outcomes, Prevention, Resources) and then into 55 topic headings, thereby providing access to over 20,000 disease-specific topics in total. Includes complete, bulleted information on every aspect of 696 diseases and disorders - 22 new in this edition. Provides differential diagnoses for over 468 signs and symptoms - 66 new in this edition. Presents all of the information you need to interpret 214 laboratory tests. Includes at-a-glance

algorithms for 249 conditions - 20 new to this edition. Offers access to the complete text online, with links to the latest drug information as well as patient teaching guides in English and Spanish - 20 new to this edition. Provides handheld software featuring the content from sections I, II, and IV and point-of-care information from other sections in the text. Presents graded evidence-based medical information throughout - the only reference of its kind! Features the work of two new section editors, Steven M. Opal, MD, and Jeffrey M. Borkan, MD, PhD.
