Tu Eloleasure with wliich I have, for several years, pursued the labor of co Uecting and arrangmg the matter of this Book, melts away, as I approach the tribunal wliich IS to pronoince upon the result of that labor. The Public which an author ft ars most is, after all, very small it is those of his own craft, who will easily discover his fiihire ;and it is precisely that small Pubhc A whose favor I am most anxious to deserve. Cardinal De Retz once said: He who ism good repute among his own order, cim not easily be overthrovn. It is from intel Hgent Pomologists that I shall receive censure with the most humility, and praise dth the most gratification ;and it wasm hope of earnmg the latter that I have oegun and completed this work. There is so Httle that is really original many work, that the unguarded and jealous critic, mreviewing some humble author, is in imminent danger of launchuig his boll at some great and standard authority. Wheu charged, by a critic of such rank, with uuperfections, I hall only be able to answer: Sir, the best Pomologists have contributed the most perfect results of their inxstigations to tliis work; and the msensible plagiarism, by which anothers idea is reproduced mmy brain, ought not to create prejudice against the idea.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
