

## Home Superbook Book 11. Garden Guide

Gardening is the creation of life. Most states and some counties have agriculture departments. If you go to local government websites, they might have agricultural knowledge on them. Many people start growing plants indoors then hardening them which is to take them outside for a few hours and increasing the time spent outside each day. Use transplant liquid fertilizer that you pour on the plant. In order to figure out what to plan and when, you have to figure out the last frost date in your area then plant cold loving plants three weeks before this date and heat loving plants three weeks after this date. Try [victoryseeds.com/frost](http://victoryseeds.com/frost). Many books and magazines are available at your local library. Most gardening books are at #635 or SB126. 630. Agriculture. 631.
