

I Heart Stationery: Fresh Inspirations for Handcrafted Cards, Note Cards, Journals, & Other Paper Goods

Artistically designed and artisanally crafted stationery and paper goods are becoming increasingly popular, and this book is a wonderful overview of the best designers, the many techniques, and the most groundbreaking designs used for handcrafted stationery and paper goods. Designed as a tactile, take-anywhere package, this book appeals not only to graphic designers but also to crafters looking for inspiration, stationery designers looking to expand their range of techniques, and design-conscious fans and collectors of all manner of stationery and paper ephemera. Organized by technique, it includes everything from screen printing to papercutting and woodblock. Each chapter begins with an overview to provide an understanding of the processes involved, which is then followed by stunning contemporary examples of stationery created employing that particular technique. Examples include everything from invitations and notepaper to gift tags, wrapping paper, notebooks, and journals. Brief profiles of top designers are interspersed throughout the book, offering insights into their designs and working practices.
