

Fantasy II: Reflections

The wheel was invented long ago. Thus also Fantasy Reflection - which in turn has its source of inspiration in mirror reflection, self-reflection and light reflection. Not that it should prevent us from working on the concept. Therefore - as in Fantasy I - this book invites you to do your own experiments. For my part, PhotoScape has been a perfect tool. A photo editing software that is easy to use. And it can be downloaded free from the Internet. Note: the paintings being manipulated are of my own production.
