

Introduction to Therapeutic Counseling: Voices from the Field

This text meets the stringent demands of traditional scholarship and also provides a lively and dynamic overview of therapeutic counseling that speaks directly to students. The authors emphasize the development of a professional identity, ethical standards, basic process skills, the therapeutic relationship, personal theory building, and understanding meaningful research. The book offers a contemporary focus on the practical realities of counseling in schools; clinics; and medical, industrial, mental health, and community agency settings.
