

What better match of author and subject than James Herriot, the worlds most beloved veterinarian, and the adorable felines that delight so many millions of pet fanciers around the world? This warm and joyful volume of stories collects some of the Yorkshire vets favorite tales about one of his favorite animals - each memoir as memorable and heartwarming as the last. Kittens and cats of all kinds populate this program and, like their flesh-and-blood counterparts, they will purr their way into the hearts and minds of everyone who hears their stories. Youll meet cats of farmers, merchants, and matrons; cats with definite social graces and wild, untamed natures; and some cats who became a cherished part of the Herriot family. Youll also meet some of the wonderful people of Yorkshire, men and women whose lives were changed forever by the love and affection of these fascinating, independent, caring creatures.
