

A Gallery of Marine Art

From historical nautical scenes to images of sea flora and fauna, A Gallery of Marine Art contains a broad range of work in varied media and techniques. Selected by Jerry McClish, President of International Society of Marine Painters, the paintings in this book present some of the finest work by marine artists from around the world. Accompanying each painting is a description of how the work was conceived and produced that also offers the artists thoughts and feelings about the sea and its environs. With 136 full-color images, A Gallery of Marine Art is an important book, one that will serve to inspire artists, art lovers, and marine enthusiasts alike.
