

## Mise en Page: The Theory and Practice of Lay-out

Tolmer, Alfred, *Mise en Page: The Theory and Practice of Lay-out*. London / New York: The Studio Ltd. / William Edwin Rudge, 1931. Unpaginated [120], profuse illustrations in duotone and b/w, including 16 full color and/or multimedia illustrations using collage, pochoir (silk-screen technique), photography (including photos by the authors son Claude Tolmer - a renowned photographer in his own right) printed on a dazzling variety of coated and handmade paper-stocks. The typography of the text (in English and French) is breathtaking. This scarce, seminal treatise on graphic design layout, itself beautifully designed by the brilliant Tolmer design and print firm, even today, represents a triumph of 20th century book design and production worthy of the attention of the 21st century designer. Contents: 1. Art & the Page 2. Writing and Designing 3. Freedom in Monumental and Typographical Writing 4. Geometry 5. Calligraphy and Typography 6. The Lay-out of the Book 7. The Advent of Publicity 8. How to Use the Art of the Past 9. Processes of Printing 10. The Influence of Modern Life on the Lay-out of To-day 11. The Function of Advertising Lay-out A must for the graphic design library.
