

## 29 Fabulous Hi Def Fotos of Females Vol. 5 Capturing Eyes

Daisy Lovely trained as a make-up artist at one of the most famous schools in Hollywood. Her hobby is to create collections of images of females that constitute outstanding examples of make-up and photographic artistry. All photographers know that the most important focus for portrait photos is the eyes. Photographers use various methods for making the eyes of their models pop. Nowadays, this is often accomplished with image editing programs. However, the goal may also be accomplished with lighting. As in previous volumes, the organization of this Vol. 5 is simple: Each page consists of one high-definition image plus a link to the portfolio of the photographer who created it. Daisys hope is that readers will enjoy viewing this collection of images as much as she has enjoyed creating it and then periodically viewing it on her HDTV after downloading the appropriate Kindle app for her computer.
