

## The Dragon Sphere (Nations Dragons) (Volume 1)

Landon Brown, fifteen year old high school football star, is always on the top of his game. That is until he receives a visit from an uncle he's never met with information about Landon's father, who disappeared without a trace thirteen years before. Landon learns that the life he's been living is a lie and that his true nature is powerful and dangerous. He's half dragon and a threat to the delicate balance that has kept dragon society hidden from humans for hundreds of years. Landon now must learn about his dragon heritage and train to control his incredible abilities with the help of the Elder Dragons, a bizarre trainer named Alpha, and other dragonoids like himself. He quickly realizes that the mysterious world of dragons, spirits, and secret societies are not for the weak. Tasked with finding the Dragon Sphere, an ancient relic harboring a terrible power that could destroy the world, Landon recognizes that he just might be way in over his head. Will he be able to control his new-found power in time for the fight of his life?
