

## No Germs Allowed !

AIDS, tuberculosis, hepatitis, chickenpox, malaria, Lyme disease, salmonella, strep throat--no matter where you go, no matter where you live, you are at risk from infectious disease. But you can protect yourself and your family! In easy-to-understand, friendly language, with lots of true case histories, helpful charts, checklists, and resources to turn to, Dr. Winkler G. Weinberg tells you what you need to know to keep the germs away. From the infections of daily life, like the common cold and travelers diarrhea, to the dangerous, rare diseases like plague, hantavirus, and invasive strep bacteria, this unique guide tells you: your chances of getting sick simple precautions you can take which vaccinations and shots are worthwhile which diseases you should really worry about how to avoid catching infections in the hospital special precautions to take if you are pregnant how to ward off infections even though you have chronic health problems or you are HIV+ how to keep well while traveling what remedies to take with you what to eat--and not eat--on the road symptoms that signal trouble what illnesses you can get from bug-bites and animals how to prevent sexually transmitted diseases who should get flu shots and why why you should see your doctor before you get sick. Tuck this compact book in your traveling bag or keep it close to the medicine chest. It just might save your life!
