

Greenwich: The Final Project

What happens when time lines and family lines converge, and history and sanity are preserved only to the extent that one is willing to embrace madness? On the eve of the new millennium, John Samuel Weston, owner of a small biotech engineering firm in Haddonfield, New Jersey, is about to find out. When John's good friend and business partner, Bob Fenwick, falls ill following a Fourth of July weekend fishing trip, John suspects foul play and ventures to the off-the-beaten-path, bay shore community of Greenwich, Cumberland County, NJ, to investigate. What he finds takes him on an unexpected journey into turmoil and madness, resurrecting ghosts and shadows from John's personal and family past and New Jersey's colonial past as well. Greenwich is a mixed genre story of love and passion, a quest for answers that takes the reader to a time and place where the lines between science and the supernatural are blurred, and where things are not always as they seem.
