

Crime Rave

Women, survivors, warriors a hardcore ensemble survive the worst act of terrorism to occur on American soil when 35,000 ravers are murdered in cold blood. The survivors work with LAPD detectives Atticus Red Feather and Synthia Gunn to piece together this monstrous act. The science experiments of an elite lab team want out, and the smog goddess Kaleanathi wants more souls to devour. What will happen if the survivors fail? The world is full of monsters, but the worst are yet to come. In the follow-up to American Monsters, Sezin Koehler has surfed a genre shift in Crime Rave from postmodern feminist horror to a crime and urban fantasy crossover, with an all-monsters-in approach to satiate even the most hardened horror fan. Picking up where American Monsters left off but written with first readers in mind Koehler weaves us into an alternate universe where goddesses reign, trauma manifests superpowers, and Marilyn Monroe lives, in this unique tale of destruction, survival, and redemption for some.
