

100 XIV

Jerry Seguin is an artist and designer residing in the Bay Area of California. The book is a culmination of work, most of it recent, but going back as far as fourteen years. The works are mixed media, mostly of objects and found images restructured. Things often discarded are given a new life and context. He's interested in the chemistry that happens when found images are altered or combined with other materials. As a collection, 100 XIV becomes a reflection of our own lives as much as it represents the artist's experience. With the turn of each page you're confronted with a face, a situation, an object reinterpreted. Past becomes just as relevant as present, the future is yesterday. You are now, and so is the book in your hands. We are all tied to our memories. A \$1 donation will be made to Visual Aids by the publisher for each copy of the book sold. Visual AIDS utilizes art to fight AIDS by provoking dialogue, supporting HIV+ artists, and preserving a legacy, because AIDS is not over.
