

Patient Care Without Borders: Languages of Scandinavia

Patient Care Without Borders is a set of patient communication care guides developed to support your patients and your healthcare professionals in their ability to communicate in any healthcare setting. Our dedicated healthcare team of Physicians, Nurses, Clinical Care Case Managers and Care Givers have worked collaboratively to develop our library of patient communication care guides to support 30+ languages with multiple patient symptoms to increase the patient experience, reduce medical errors and save lives. www.picturetalkbooks.com is a media publishing company created by healthcare professionals, and we developed this product solely to support the patient and provider interaction.
