

## The Lost Orchards of Cantrer Gwaelod. (Booklet)

The author invokes the Welsh legend of Cantrer Gwaelod, a land long since drowned beneath the Irish sea, to help him communicate his passion for apple growing. Assisted by glimpses into a mythological past we are enabled to see into a potential future and the need to produce new varieties of apple. More importantly the need for us all to do this, not leaving it in the hands of faceless experts. After the inspiration comes the simple How To explanations allowing us all to participate in the apple crops of the future by growing apple trees from seeds today.
