

Physician and Patient Information Workbook and Guidelines for Patients

The Patient and Physician Information Workbook is intended to be a helpful tool for patients that want to take a more active role in their medical care, by tracking important aspects of a major medical event or daily health care. The elements of this workbook are designed to give the Physician a better understanding of their comprehensive medical profile. This workbook will be helpful for: - Major medical injuries - Pregnancy - General Health Maintenance - Elder care - Disease It has always been my desire to help patients young and old in their medical care. I always have showed them respect and wish them a healthy lifestyle. It is my intention to have the patient use this workbook to maintain the lifestyle they desire.
