

Professional Orchestration Vol 2B: Orchestrating the Melody Within the Woodwinds & Brass

Professional Orchestration 2B, Orchestrating the Melody Within the Woodwinds and Brass, completes the second volume in the Professional Orchestration Series, and continues Alexander Publishings historic breakthrough in orchestration instruction. Volume 2B details, for the first time, dozens of woodwind and brass writing techniques previously known by only a few top professional film orchestrators, composers, and arrangers and applicable to both live performance and MIDI mock-ups. Loaded with references from 38 different works in a large full page/full score format. Techniques are referenced meticulously in the low, medium, high, and very high registers. For fast referencing for both winds and brass, techniques are organized by unisons, two-parts, three-parts, and four-parts. Each technique has a brief commentary pointing out other score details, and often, electronic scoring insights. The Professional Orchestration Series has been endorsed by winners of the Academy, Grammy, Emmy, BAFTA, G.A.N.G., Telly and Ava Gold Awards.
