

Rapid Review of Paces

Rapid Review of PACES is an essential guide for the MRCP PACES examination that has been fully updated to include the revised exam format, covering all five clinical stations, including Brief Clinical Consultation, History Taking, Communication Skills and Ethics. This book includes the most common case based clinical scenarios and provides practical advice on approach to the patient, inspection of signs and examination technique, with thorough explanations of how to interpret the elicited signs. The systematic clinical examination techniques given by this book will help serve as templates as you develop your own style and perfect your clinical skills as you strive to become that better physician.
