

Roni Horn: Haraldsdottir Part Two, Limited Edition

Roni Horn's To Place series explores the connections between identity and location. This latest volume in the series is related to Haraldsdottir, which was published in 1996. Using water as a context, the photographs of a woman create an intimate but ambiguous portrait where the face becomes the place. Haraldsdottir, Part Two contains 100 photographs of the same subject taken 15 years after the publication of Haraldsdottir. Each book is presented in a blue clothbound embossed slipcase and comes with a signed and numbered original color c-print.
