

Small Spaces, Beautiful Gardens

If you love gardens but don't think you have enough outdoor space to cultivate one, this book is for you. Written by a 20-year veteran of landscape design, this imaginative guide features 18 hardworking profiles of gorgeous small garden paradises. Through step-by-step instructions, before-and-after photos, and detailed plans, landscape architect Keith Davitt offers ingenious tips and techniques for creating the illusion of space through terracing, enlarging through dividing, adding texture and color, and more. Keith Davitt has been designing, building, photographing, and writing about gardens across the U.S. and abroad for 20 years. He recently won the Herald Award for Excellence in Garden Communication, and his gardens and articles have appeared in numerous gardening magazines. He is also the author of the forthcoming *Beyond the Lawn*. He lives in New York City.
