

# Doctor Who and the Abominable Snowmen

A single blow from the giant, hairy paw smashes the explorer to the ground. Terrified, he flees from the monsters glowing eyes and savage fangs... Why are the peaceful Yeti now spreading death and destruction? And what is the secret behind the glowing cave on the mountain? When Doctor Who discovers that a long-dead friend is still alive, he knows why his visit to the lonely Himalayan monastery has led to a struggle to save the Earth! David Troughton reads Terrance Dicks complete and unabridged novelisation, first published by Target Books in 1974.
