

The Amazing Dog Training Mans Ultimate Guide To Dogs: 40 Lessons On Training, Behavior, Nutrition And More

If you'd like your dog to listen to ALL of your commands and to stop annoying behaviors... using simple, proven techniques... training only 10 minutes a day, then this book will show you how. Here's the story... I don't know about you, but having a dog can sometimes be downright confusing. Sometimes frustrating. Especially if your dog pulls on leash, jumps on everyone (including you), steals your dinner off the table and doesn't come when called. To make matters worse, much of the information about dog training is conflicting. A confused dog owner does not know who to listen to. I know because I got involved with dog training with my first dog who was a real handful. I knew nothing about housetraining, how to stop chewing, jumping or pulling on leash and everything I tried seemed to make it worse. Everywhere I turned I got different advice. Some years ago, J. Allen Boone said: There are facts about dogs, and then there are opinions about them. The dogs have the facts, and the humans have the opinions. If you want the facts about the dog, always get them straight from the dog. If you want opinions, get them from humans. Over the past 20+ years, I have studied thousands of dogs for the answers and have compiled it all in my newest book. And that's just the beginning... Here are some tips that you'll find in the book; How To Avoid 7 Common Dog Training Mistakes. (Besides the long term problems your dog can develop if you do any of these mistakes, there are major consequences for you if you make any of these mistakes). Keep It Simple - Applies To Teaching Come When Called. (And how you get much better results when you follow some simple and effective steps.) Dog Doesn't Come When Called? You Are NOT Alone. (The #1 reason why dogs don't come when called and how to avoid it.) How The Man With A Stolen Brain Reveals The

Secret To Dog Ownership. (True story of a famous French writer who revealed the Secret over 200 years ago.) The One Thing YOU Need To Do If Your Dog Is Afraid Of Thunder Or Loud Noises. (And how your actions could make this behavior worse.) This is just some of what you'll learn in my newest book, The Amazing Dog Training Mans Ultimate Guide To Dogs, 40 Lessons On Training, Behavior, Nutrition and More.
