

## Genesis: The Apocalypse

In a small town in Virginia, a terrible and unimaginable accident occurs at a secret government research facility. A deadly virus is released into the air upon the unsuspecting residents of the town. The residents of this typical American town are transformed into horribly disfigured flesh-eating and mindless mutants. What was once a sunny slice of southern American heaven is transformed in minutes into a dark vision of hell. When darkness falls, chaos ensues as the residents struggle with their humanity as they are being transformed into something not human.
