

## The Art of Dinosaur Designs

As young art students, Louise Olsen and Stephen Ormandy began selling resin jewelry with a stall at Sydneys Paddington markets. Today they have a business that employs 85 people and nine stores around the world including New York and London. Dinosaur Designs is the name of their jewelry and homewares company, admired around the world for its bold, colorful designs and unique fusion of art and design. Almost every Dinosaur Designs piece is still handmade by artisans in its Sydney studio, because creativity remains at the core of what they do. More than 30 years since founding the business, Olsen and Ormandy are still going strong and their passion and creative flow is more exhilarating than ever. With this book Olsen and Ormandy open their hearts, minds, and studio doors, to share their inspirations, ideas, and process.
