

# The Complete Angler

The Compleat Angler was first published in 1653, but Walton continued to add to it for a quarter of a century. It is a celebration of the art and spirit of fishing in prose and verse; 6 verses were quoted from John Dennyss 1613 work The Secrets of Angling. It was dedicated to John Offley, his most honoured friend. There was a second edition in 1655, a third in 1661 (identical with that of 1664), a fourth in 1668 and a fifth in 1676. In this last edition the thirteen chapters of the original had grown to twenty-one, and a second part was added by his friend and brother angler Charles Cotton, who took up Venator where Walton had left him and completed his instruction in fly fishing and the making of flies.
