

## Crisis Of The Real (Aperture Writers & Artists on Photography)

Agree with them or not, Andy Grundbergs provocative critical opinions invariably make one think hard about the art of photography. Gathered together in the rigorous form of a book, his reflections take on a new perspective and provide a rare opportunity to relive--and reconsider--recent history: a decade and a half of such intensity that the shape of photography changed forever. --Jim Hughes, author of W. Eugene Smith: Shadow & Substance
